

**If you receive a Video
Relay Service (VRS) call,
"DON'T HANG UP"!**

When you receive a Canada VRS call, the first thing you'll hear is a video interpreter (VI) letting you know that a caller who uses sign language is calling you.

Alternatively, when you call me, Canada VRS will respond first before we connect. Sometimes there is a short delay while the VI connects us so please stay on the line and "Don't Hang Up".
