ASL

BY ACCESSING OR USING THE VRS SERVICES, YOU AGREE TO BE BOUND BY THESE TERMS AND CONDITIONS AND AGREE TO USE THE VRS SERVICES IN ACCORDANCE WITH THEM. IF YOU DO NOT ACCEPT AND AGREE TO THESE TERMS AND CONDITIONS, YOU ARE NOT PERMITTED TO ACCESS OR USE THE VRS SERVICES.

INTRODUCTION - ASL

Welcome to SRV Canada VRS, a video relay service made available in Canada by the Canadian Administrator of VRS (CAV), Inc. and its service providers, suppliers, and licensors (“**CAV**”). By using the video relay service and any related services and software made available by CAV (“**VRS Services**”), you agree to be bound by these terms and conditions and any other additional or alternative terms, conditions, rules, and policies displayed on the www.srvcanadavrs.ca website or to which you may be directed, all as may be modified by CAV from time to time (the “**Terms and Conditions**”). References to “**you**” and “**your**” are to you and anyone who uses the VRS Services through your registered account. References to “**we**”, “**us**” and “**our**” are to CAV.

AVAILABILITY AND ACCESS - ASL

To access the VRS Services, you must register and comply with the Technical Requirements, as described below. Only Canadian citizens or residents of Canada who (a) are Deaf, hard of hearing, or speech impaired, and (b) use American Sign Language and/or Langue des signes québécoise are eligible to register for the VRS Services.

The VRS Services, including access to 9-1-1 services, are only available during the hours of operation specified on the www.srvcanadavrs.ca website.

You may use the VRS Services when you are outside of Canada. However, 9-1-1 services are only available in Canada.

You will be able to make calls using the VRS Services to any 10-digit number in Canada and telephone numbers associated with most locations in the U.S.A. without charge. International calls, calls to certain locations in the U.S.A. (e.g., Hawaii and Alaska), and other calls that cost money over and above the cost of the call (e.g. calls to 1-900 telephone numbers) that are made through the VRS Services will require you to use a third party billing service to complete the calls. We may block your access to certain telephone numbers (e.g. telephone numbers for adult services) in our sole discretion. The VRS Services do not include any directory assistance services (e.g. 411).

You should consult the www.srvcanadavrs.ca website for detailed information about the VRS Services.

REGISTRATION, ACCOUNTS AND PASSWORDS - [ASL](#)

Should you choose to register for the VRS Services, you certify that you are (or, if applicable, the minor whom you are registering is) a Canadian citizen or resident of Canada who is Deaf, hard of hearing, or speech impaired, and you agree to provide accurate and current information about yourself (or, if applicable, the minor whom you are registering), and to promptly update such information to ensure that it is kept accurate and complete.

You agree to be responsible for: (a) maintaining the confidentiality of any passwords or other account identifiers that you choose or are assigned; (b) all activities that occur under your password(s) or account(s); and (c) where you have registered a minor to use the VRS Services: (i) the conduct of the minor, (ii) controlling the minor's access to and use of the VRS Services, and (iii) the consequences of any misuse by the minor.

Further, you agree to immediately notify us of any unauthorized use of your password(s) or account(s), whether known or suspected. We will not be responsible or liable, directly or indirectly, in any way for any loss or damage resulting from, or in connection with, your failure to comply with this Section.

MULTIPLE ACCOUNTS - [ASL](#)

CAV may, but is not required to, allow you to have a second account for business or employment use. In such case, for convenience only, CAV shall designate one account "personal", and one "business". Each account will be assigned a separate 10-digit telephone number during the registration process to make and receive calls.

You acknowledge that if you are using two accounts on one device, you will not be able to make or receive calls on the device under one account, while signed into the other account. For instance, if you are signed into your personal account, you will not be able to receive calls under your business account and number. Therefore, it is recommended that you use different devices for each account.

TELEPHONE NUMBERS - [ASL](#)

You do not own any telephone number or other identifier that we may have provided or assigned to you, and we may change any of them if required. We will use commercially reasonable efforts to notify you in advance of any of these changes. We will not be liable for any costs, damages or losses associated with these changes. Your telephone number(s) and other identifiers, including your name, may be automatically displayed to the person called, other carriers, or to us. You may control your caller identification settings in the CAV application. Please note, however, that your telephone number(s) and other identifiers will always be sent to the 9-1-1 operator when you make a 9-1-1 emergency call.

PRIVACY - [ASL](#)

In order to offer you the VRS Services, we may access certain information relating to your use of the VRS Services, as described below in the section titled "Information Access". We are committed to maintaining the accuracy, confidentiality, security and privacy of your information. Any collection, use and/or disclosure of your information by us in connection with your use of any of the VRS Services is governed by our Privacy Policy, which can be accessed at www.srvcanadavrs.ca.

Please note, however, that your use of the VRS Services will require your image and/or voice to be transmitted over the Internet. No transmission of information via the Internet is completely secure or confidential, and we cannot eliminate all security risks associated with the transmission of confidential, sensitive or personal information. We do not warrant the security of any data or information that is transmitted through the use of the VRS Services, and you use the VRS Services at your own risk.

To the extent that you use the VRS Services in a manner that results in the transmission of confidential, sensitive or personal information of third parties, you represent and warrant that you have obtained all required consents for the transmission of such information. In addition, you agree to indemnify and hold us harmless from any and all damages, claims, liabilities and associated legal costs resulting from the transmission of such information during your use of the VRS Services.

9-1-1 EMERGENCY CALLS - [ASL](#)

To make an emergency call, dial "9-1-1" in the CAV application that you use to access the VRS Services. It is very important that you keep your registered location (address) up to date in your profile(s) with us to assist with a prompt response. When you dial "9-1-1", the following is what you can expect:

- your call will be put on high priority and will go to the first available video interpreter; and
- the video interpreter will act as an intermediary between you and the 9-1-1 operator at the nearest public service access point ("**PSAP**").

There are limitations and risks of using relay services provided by us to make 9-1-1 emergency calls. Here are some examples of these limitations and risks:

- 911 emergency calling capability is available only during our hours of operation;
- failure to automatically retrieve your registered location information or failure to route your call to the appropriate emergency responder. Additionally, in instances where you are unable to clearly give your address or are unwilling to give your address, we may be unable to connect you to the appropriate emergency personnel; and
- failure or outage to your equipment, software and/or any facilities necessary to place or sustain a 9-1-1 call through the VRS Services.

Limitations in 9-1-1 calls made through the VRS Services may cause a delay in connecting with the nearest PSAP. For this reason, a landline telephone or a TTY may be the safest and most reliable means of accessing an emergency response.

Please see the section below titled “Waiver of Liability for 9-1-1 Emergency Calls” for our disclaimers of liability relating to 9-1-1 calls.

MODIFICATIONS - [ASL](#)

Subject to applicable law, we may, in our discretion, modify these Terms and Conditions at any time without incurring any liability or obligation whatsoever to you or any other person or entity. If we do this, we will, indicate at the top of this page the date these Terms and Conditions were last modified.

In addition, we will provide you notice using email and/or your mailing address, or any other contact information we have for you, in our discretion, and setting out the new or modified clauses and how they read previously, and the date on which the change came into effect or will come into effect. If you do not agree to the modifications to the Terms and Conditions, then you may refuse the amendment and cancel your registration/use of the VRS Services without cost, penalty, cancellation fee or indemnity by providing us with written notice to that effect before, or no later than thirty (30) days after, such modification comes into force. To the fullest extent permitted by applicable law, your continued use of the VRS Service after the date specified in a modification notice constitutes your full acceptance of, and agreement to be legally bound by, these Terms and Conditions, as modified.

Subject to our right to make modifications, no other statements (written or verbal) will change these Terms and Conditions. You may not make any changes to these Terms and Conditions.

TECHNICAL REQUIREMENTS; VRS SERVICE UPDATES - [ASL](#)

Your use of the VRS Services will require your device to be connected to the Internet. You may choose to access the VRS Services using a mobile service. You acknowledge that audio and viewing quality may vary depending on the quality of your Internet or mobile connection and equipment. Further, you acknowledge that, from time to time, you may be unable to access the VRS Services or you may experience video and/or audio re-buffering or drop-outs.

Your use of the VRS Services is subject to certain minimum technical requirements (the “**Technical Requirements**”) described on the www.srvcanadavrs.ca website. It is your responsibility to ensure that you have access to the hardware and/or software required to access and use the VRS Services. We may change or stop support of any hardware or software at any time. Any such change or cessation of support will be addressed in the Technical Requirements. We may change the Technical Requirements from time to time at our discretion and, unless we specify otherwise, you are responsible for updating or maintaining your devices, Internet or mobile connection, and hardware and software as necessary to meet the Technical Requirements.

We may choose to make available updates, upgrades or other changes or enhancements to the VRS Services (“**Service Updates**”). Service Updates may be: (a) optional, in which case you will receive information and instructions to authorize Service Updates; or (b) mandatory, in which case you must accept the Service Update for continued access to the VRS Services. In addition, we may test features and functions of the VRS Services, including user interfaces and service levels. By using the VRS Services, you agree that we may include or exclude you from these tests without notice.

- not violate or breach the security of the VRS Services, our website, network, software or any computer or equipment used by us; and
- not make multiple calls, or switch to your other account, if applicable, in order to connect with a different or preferred video interpreter;
- not use the VRS Services for business or employment activities that rely predominantly on phone services. This includes telemarketing, phone-based customer service or other support services, phone sales or repetitive confirmation calling, or other types of heavy or repetitive calling which we may deem excessive in our sole discretion;
- limit your use of the VRS Services for conference calls or calls with multiple participants to 1.5 hours in duration per call;
- hire a sign language interpreter or video remote interpreting service for calls lasting longer than 1.5 hours. The VRS Services are not intended to be a substitute for community-based interpreting or video remote interpreting services;
- not re-distribute, sell, de-compile, reverse engineer, disassemble, or otherwise reduce any software forming part of the VRS Services to a human-readable form.

MONITORING - [ASL](#)

You acknowledge that we have no obligation to monitor any of the VRS Services. However, you agree that we can monitor the VRS Services electronically from time to time, and to disclose any information as necessary to satisfy any law, regulation or other governmental request, to operate any of the VRS Services properly, or to protect us or our users in accordance with the Privacy Policy.
